## Crop Specialist

We are looking for a dynamic individual to join our team!

### PURPOSE AND SUMMARY STATEMENT

Under the direction of the General / Area Manager, the Crop Specialist performs a consultative sales and service function to the area crop producers including agronomic solutions, sales, crop scouting, and product logistics to achieve maximum sales profitability and growth, within an assigned territory. This position requires the ability and desire for the attainment of CCA and CCS designations in a reasonable period of time.

### SUPERVISION AND LEADERSHIP

Works closely with the management to support products and services offered by the Crops Division. Provides support, direction and technical expertise to Operators involved in the delivery and custom application of agronomy products. May assist with the ongoing training of Operators.

### REQUIREMENTS

- Normally requires a minimum of a college diploma or a university degree in agriculture, marketing, or other related discipline.
- Acquired or is working to toward CCA (Certified Crop Advisor) and/or Certified Crop Specialist (CCS) designations.
- Strong interpersonal and communication skills
- Valid drivers license

### WHY WORK WITH US:

We believe that taking care of our employees is essential to our business. We are proud to offer our team competitive compensation and benefits programs including:

- Extended health coverage
- Dental and vision coverage
- Company matched pension plan
- Profit sharing
- Yearly uniform and boot allowance
- Employee discount
- Educational assistance program
