

**Senior Agronomist**  
(To be based out of Charlottetown or Summerside, PE)

**Cavendish Agri Services supports farmers in growing healthy and productive crops. We have 13 manufacturing/retail locations throughout Atlantic Canada and Maine. Our primary products include fertilizers, crop protectants and technical expertise.**

Reporting to the Director of Sales, the successful candidate will provide agricultural expertise and advice to Customers and support the entire Prince Edward Island region. The **Senior Agronomist** will work with Growers to provide support in the production of the highest quality crops in a profitable and sustainable manner.

**Successful Candidate will possess the following qualifications:**

- A post-secondary education in Agriculture or equivalent business experience; specific experience with potato production would be considered a strong asset.
- CCA (Certified Crop Advisor) or eligible for the certification and pesticide application license.
- Minimum of 3-5 years of relevant work experience required.
- Strong interpersonal, communication, organizational, agronomics and analytical skills
- Results driven
- Ability to work well under pressure and meet multiple project and priority deadlines
- Proficient with Microsoft Office software
- A proven track record of being pro-active and taking initiative

**Key Responsibilities:**

- Act as resource to Growers for agronomic advice in the successful growing and storing of top quality crops.
- Provide technical and research based agronomic advice and support.
- Troubleshoot areas of crop production/storage concerns, provide solutions and corrective actions to avoid repeats.
- Provide weekly reports during the growing season to senior management on local crop progress, expected yields and quality.
- Identify and create agronomic experiments with meaningful and useful results that will aid the company in its vision for top quality raw supply for the plant.
- Develop and implement extension activities such as field trials, monitor crop & storages, grower seminars, etc.
- Keep up to date with best-in-practice industry innovations and technology and work to introduce relevant best practices to Growers in the Region.

**To Apply for this Career Opportunity:**

Please apply online by June 1, 2018
